

Important Traffic and Safety Reminders

February 2020

Dear River Grove Families, Visitors, and Staff,

The River Grove Board of Directors is in talks with May Township to amend and renew our Conditional Use Permit (CUP). It's important for the school to have a positive relationship with the Township while being good neighbors and partners in the community.

All traffic coming to and from River Grove is asked to review these important restrictions, along with important safety and liability reminders for families doing morning drop-off.

- The use of Oldfield Road N (the section that runs north/south from Square Lake Trail to the Ostlund/Oldfield intersection) is restricted at the request of May Township. Please do not use this section of road for any River Grove traffic (see map below).
- Parent drop-off and pick-up parking is solely located in the guest parking lot "A" (see map below).
- Please be efficient when leaving the student drop-off area when parking is limited.
- Please pull into a parking spot to let occupants out of the vehicle. Do not block the flow of traffic to drop-off students.
- Parking/drop-off/pick-up on non-designated areas (such as the service road) is strictly prohibited.
- Observe the speed limit and use caution at all times.

Thank you!

Drew Goodson

School Director, River Grove: A Marine Area Community School
